

RIF1-PP1 interaction negatively regulated by CDK1

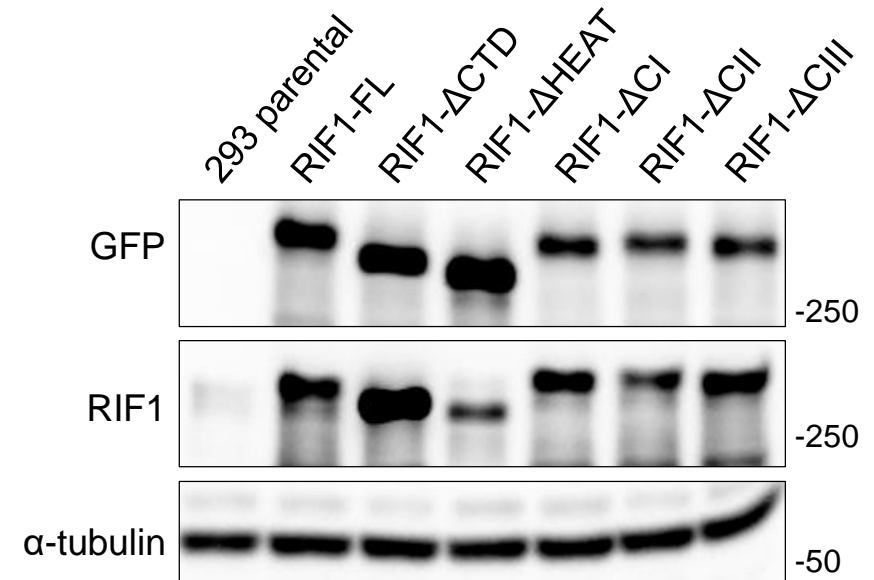

U2OS cells stably expressing GFP-tagged RIF1-ΔCIII recombinant mutants

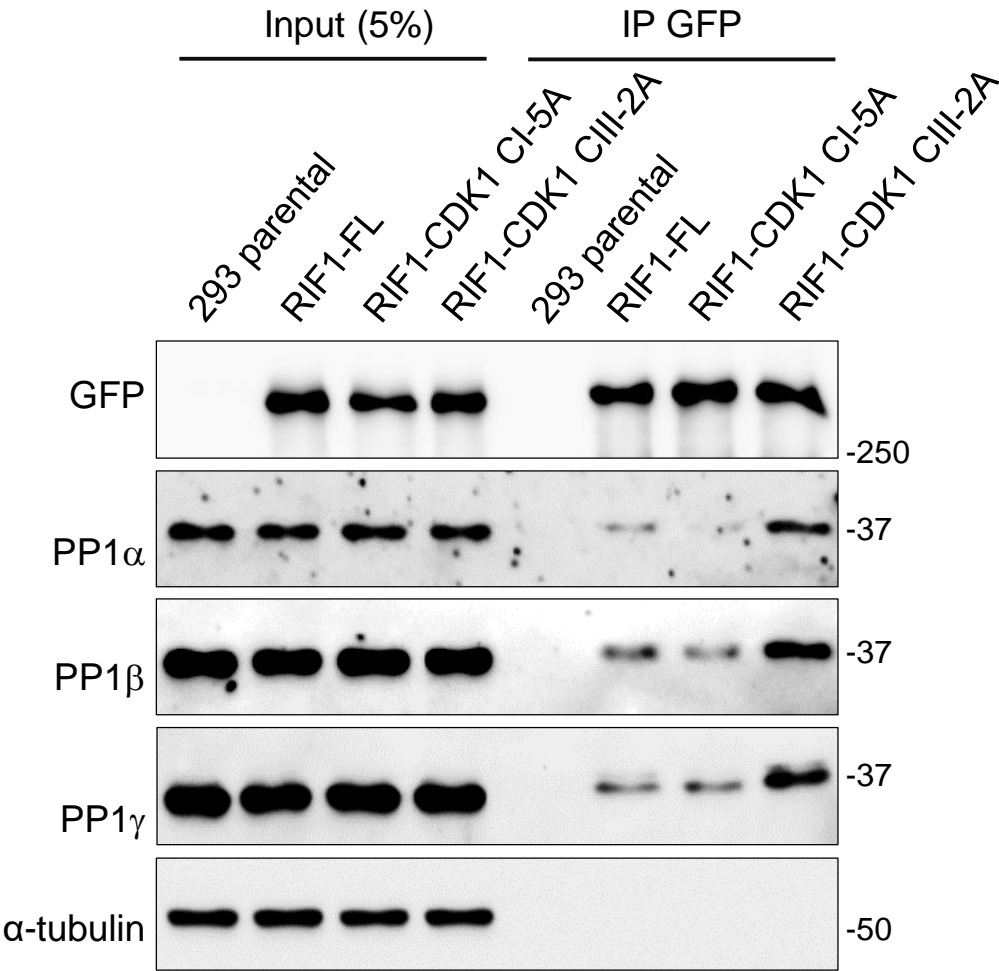

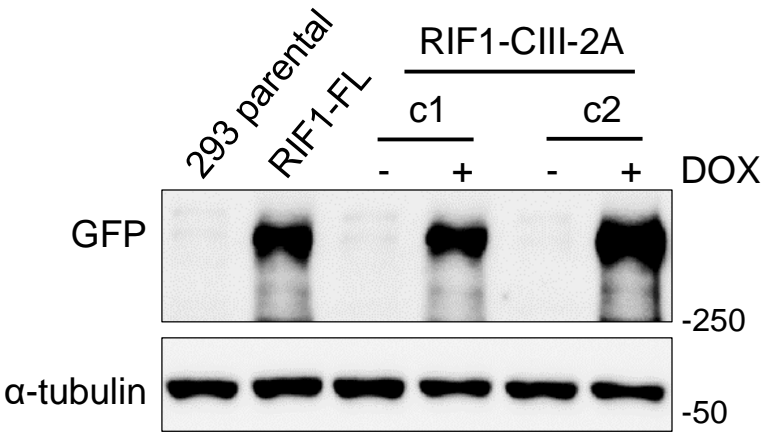

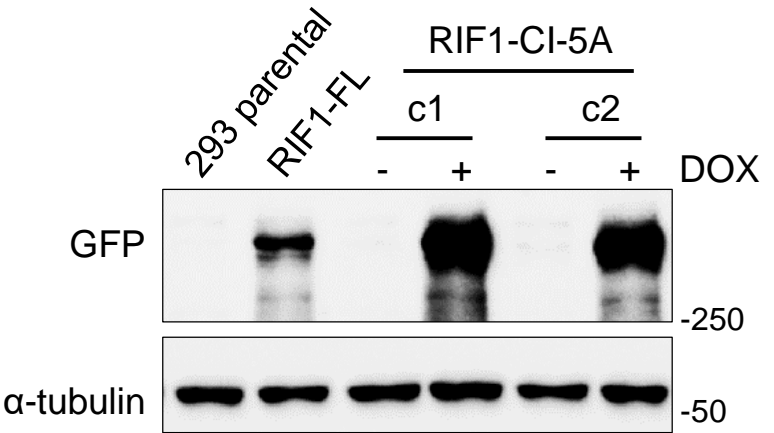

Co-immunoprecipitation of GFP-RIF1 in 293 cells stably expressing GFP-RIF1 mutants, FL and RIF1- $\Delta$ CIII

Expression test of all GFP-tagged RIF1 recombinant deletion mutants

Co-immunoprecipitation of GFP-RIF1 in 293 cells stably expressing GFP-RIF1 mutants, FL, RIF1-CI-5A and RIF1-CIII-2A

## RIF1 deletion mutants remain stable in cell cycle distribution
