

PP1 interacts with RIF1 in mitosis

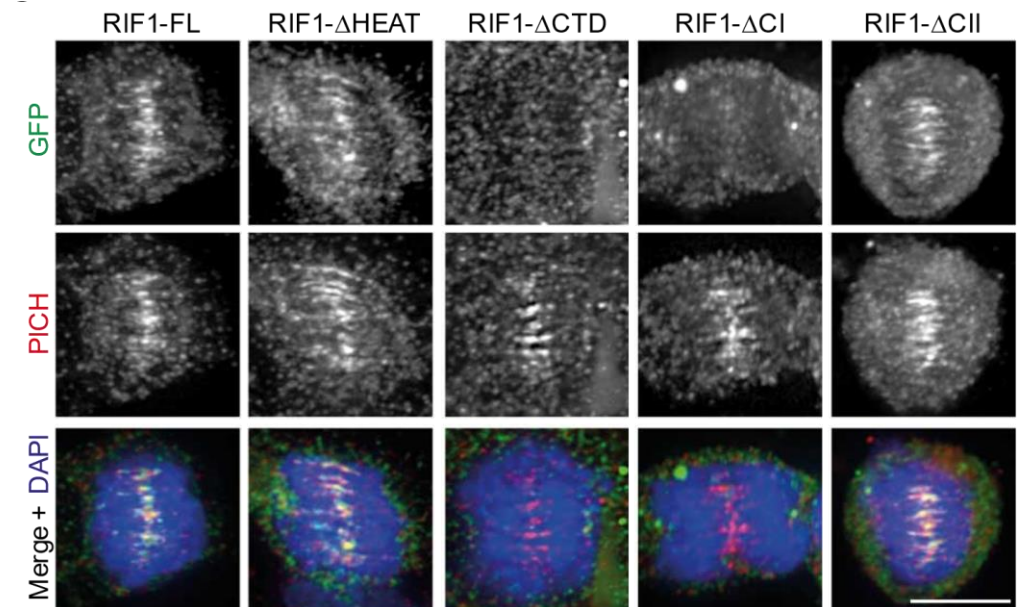

Construction of GFP-tagged RIF1 recombinant deletion mutants

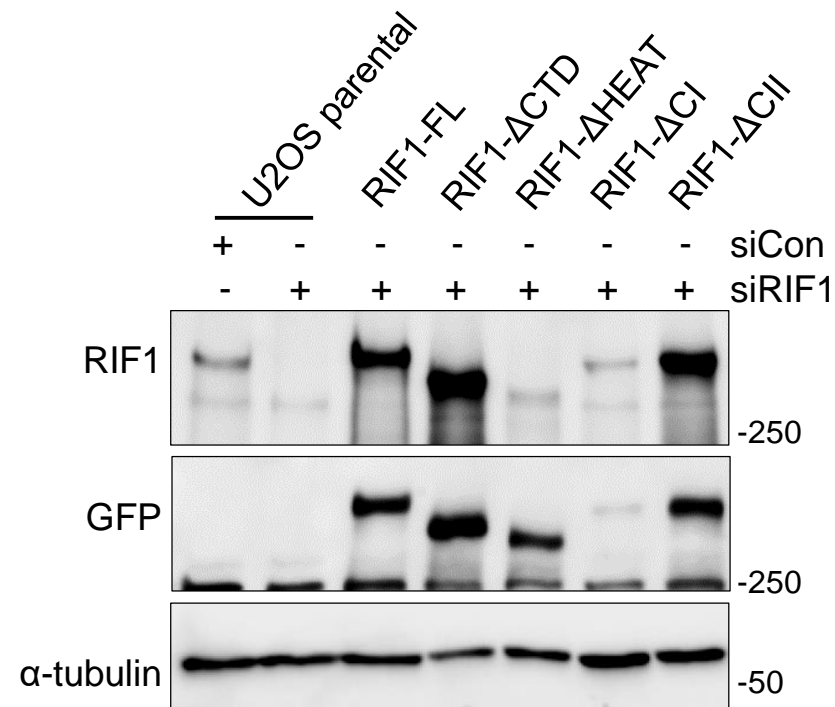

Co-immunoprecipitation of GFP-RIF1 in 293 stable cells expressing GFP-RIF1 mutants

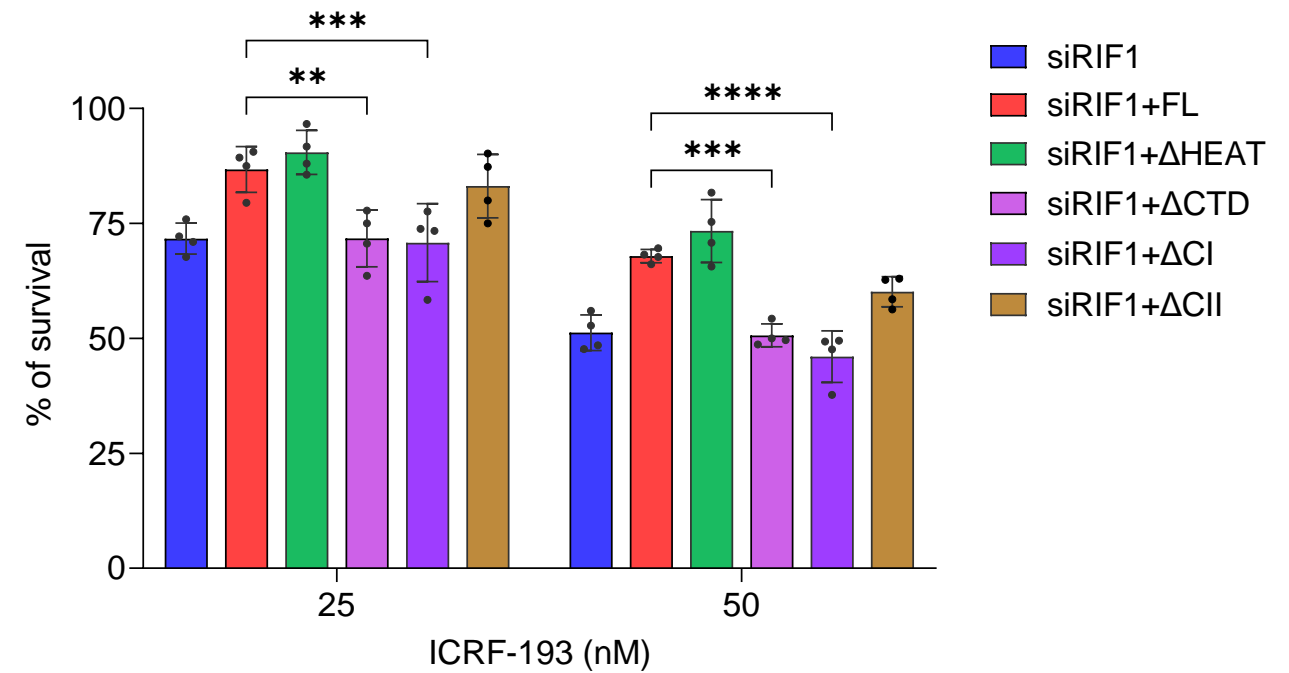

Localization of RIF1 and PICH on UFBs in U2OS anaphase cells stably expressing GFP-RIF1 mutants

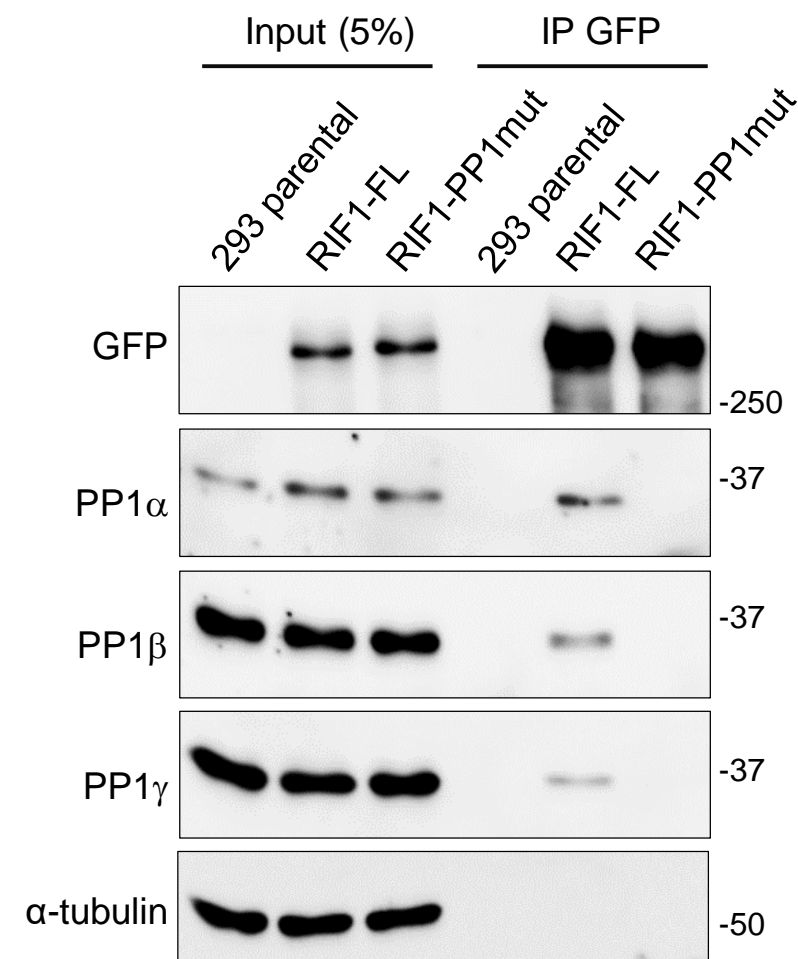

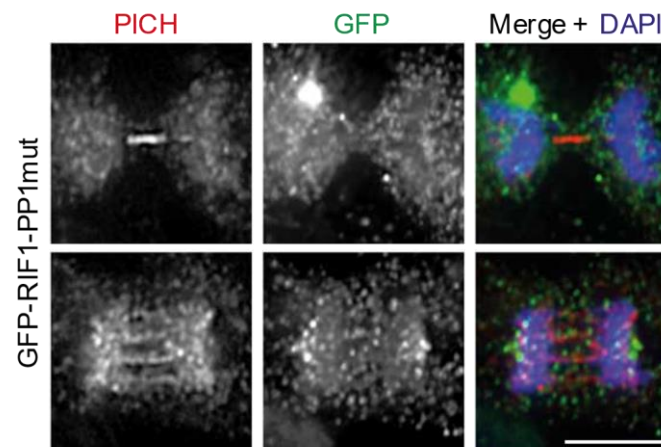

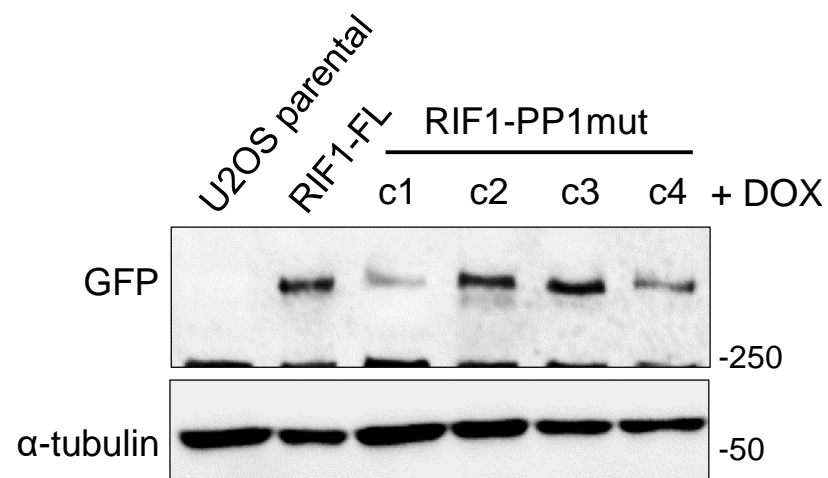

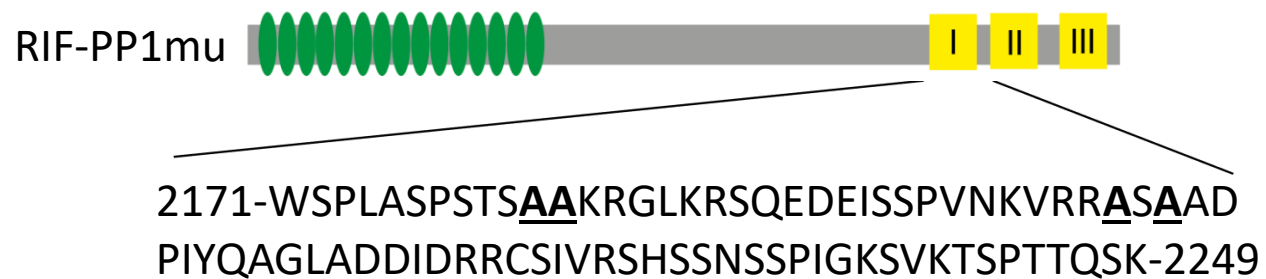

Endogenous RIF1 depletion by siRNA in U2OS cells stably expressing GFP-RIF1 mutants

ICRF-193 sensitivity assessed of U2OS cells stably expressing GFP-RIF1 mutants treated with RIF1 siRNA

RIF1 interacts with PP1 via the docking motifs in its CI domain

RIF1 recruits PP1 to UFBs
