

Rapid depletion test of RIF1 in HCT116RIF1-mAID-GFP cell line

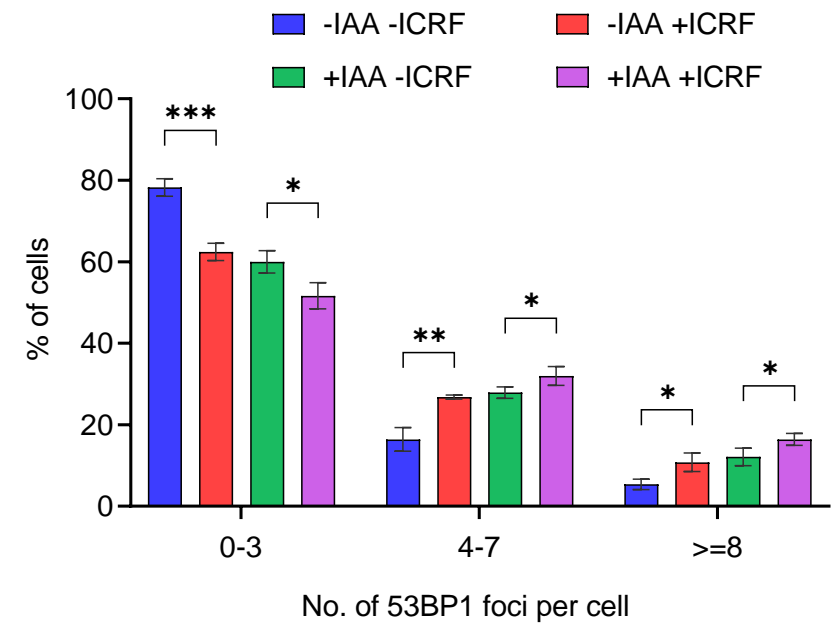

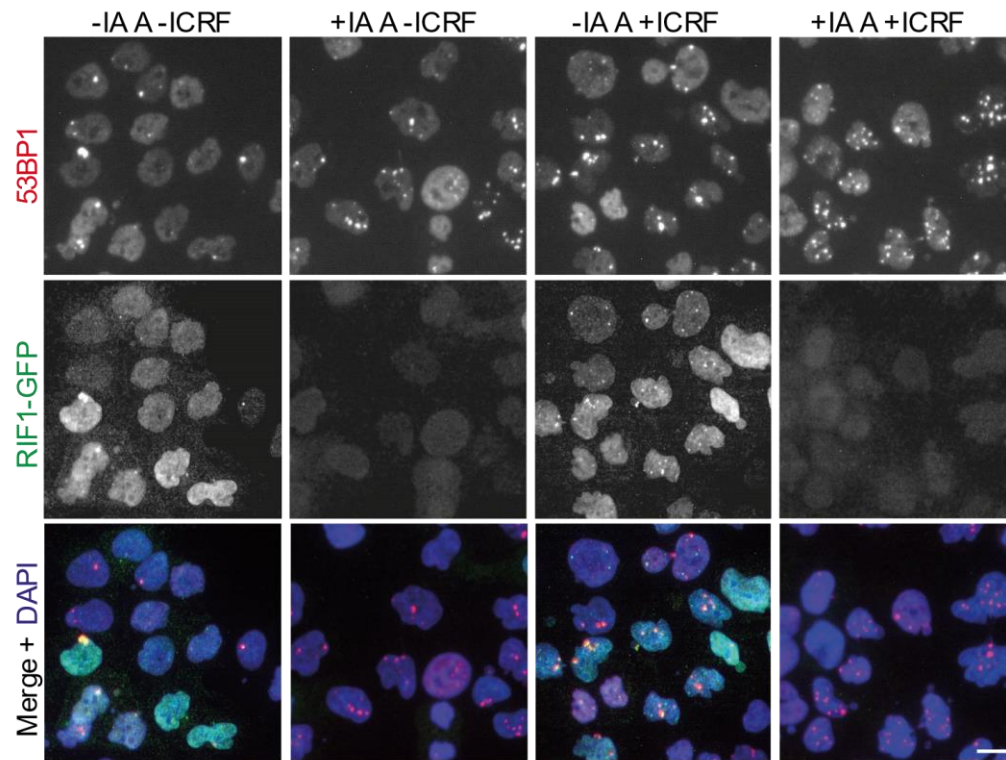

HCT116^{RIF1-mAID-GFP}

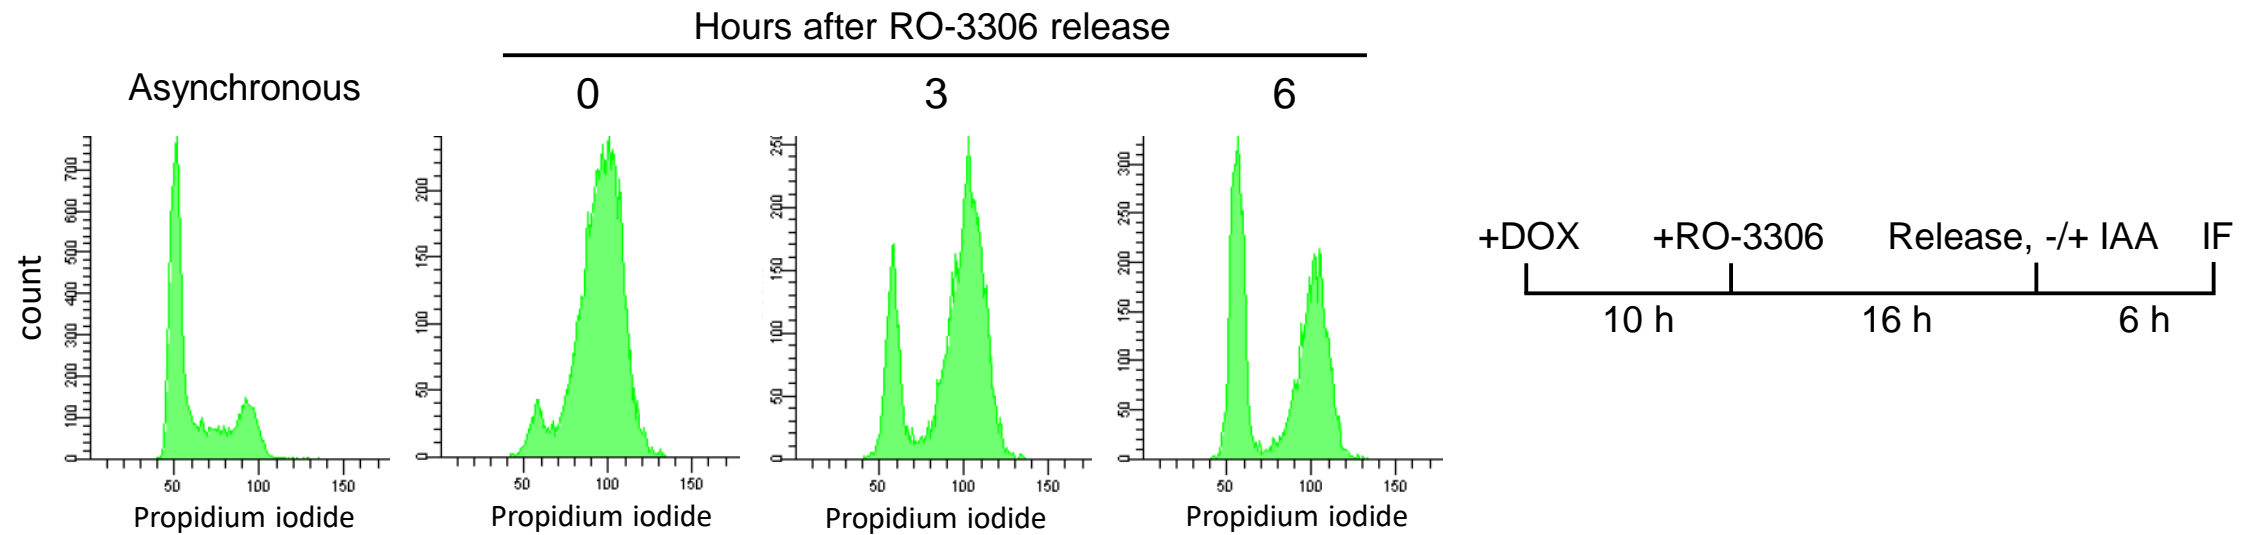

Time points test for double thymidine block to arrest cells in G2/M phase

53BP1 nuclear bodies formation after RIF1 rapid depletion in G2/M

Time points test of HCT116RIF1-mAID-GFP cells treated with RO-3306 and released from G2/M to G1 phase

Depletion of RIF1 in G2/M phase induces DNA damage in next G1 cells
