Dissertations & Theses @ University of Hong Kong [electronic resource] @ This database gives access to about 2078 indexes and 10 full texts of dissertations and theses produced by students from University of Hong Kong. All titles are indexed in the ProQuest dissertations and theses A&I database. HKU theses online [electronic resource] ♂ As of 30 Jun. 2011, The Hong Kong University Theses Collection holds 18,973 titles of theses and dissertations submitted for higher degrees to the University of Hong Kong since 1941. The first recorded thesis was dated 1928, though all theses prior to 1941 were lost during the occupation of WWII. HKUTO includes works in the arts, humanities, education and the social, medical and natural sciences. Many of them deal entirely with or focus on subjects relating to Hong Kong. The collection is primarily in English, with some in English and Chinese, and others in Chinese only. Almost all HKU theses are included in HKUTO. Missing ones might be located in HKU departmental libraries. HKUTO now includes 18,758 fulltext electronic theses. #### Theses Submission Policy

Research Postgraduates (RPg): In the Fall of 2000, the Policy Board of Postgraduate Education (Policy Board) reviewed recommendations made by the HKU Academic Council for Information Technology (ACITE) on theses submission. In November 2000, the Senate considered and approved this recommendation. Subsequent to this decision, RPg students entering MPhil and PhD programmes on or after 1 January 2001 are required to submit an electronic copy (ETD) of their theses along with the print copy. For more information, please refer to "Regulations Governing the Format, Binding and Presentation of Theses for Higher Degrees by Research".

Taught Postgraduates (TPg): In 2000 and 2001, the Libraries canvassed all HKU faculties on the benefits of ETD creation especially in regard to online discovery and research visibility. In the year 2002, TPg programmes began to adopt this ETD requirement. Since 2013 the Libraries only accession TPg ETDs and no longer accession print TPg theses. TPg students should check with their Faculty Office on the requirement for ETD submission.

#### Restricted Access

Authors of theses may request the proper authority to grant them permission to block access to their theses, print and electronic, for up to five years for Research Postgraduates and Taught Postgraduates. Students should apply for this restriction when filling out the theses submission form. Applications for access restrictions to theses are considered by the respective Faculty Board.

If the Libraries receives a thesis submission form requesting restricted access, and has been duly informed by the Faculty Board on the approval of access restrictions, the Libraries will 1) create a bibliographic record in the catalogue but suppress it for up to the approved period, and 2) mount the e-thesis but block access to it for up to the approved period.

#### How to submit HKU Theses

#### Research Postgraduates (RPg)

Starting from 1 January 2017, the Thesis Submission E-Form: MPhil & PhD will replace the previous print form to facilitate a more efficient and convenient workflow for RPg theses submission.

Before submitting, please check 'Format of HKU ETDs' for proper computer format and number of files to submit, and 'Create an ETD' on instructions on how to convert your thesis to a PDF file.

When you are ready to submit, login to the E-Form with your HKU Portal account or via a combination of your student ID, telephone number, and HKID. Instructions are available as you go along. For an overview of the submission process, please refer to the online submission workflow.

#### Taught Postgraduates (TPg)

TPg students should first check with their Faculty Office on the requirement for ETD submission. For submission, they should fill out the Other HKU Degrees Thesis Submission Form and save their thesis on a CDROM or DVDROM. Please enclose the CDROM or DVDROM in a paper or plastic envelop. Do not apply sticky tapes to the CDROM or DVDROM surface. Please also note that the CDROM or DVDROM will not be returned to the students.

Do you still have access to HKU Portal?

Yes

- You have active student portal account
- Don't use staff portal account
- If you are in the grace period for accessing portal, it doesn't work

- The system will ask for UID
- Authenticate with phone no and HKID no.

#### Endnote@HKU

EndNote is a bibliographical management software package designed to help you to organize bibliographic references and create a bibliography.

#### Research Data Services

Beginning with the September 2017 intake, all HKU Research Postgraduate (RPg) students have responsibility for

- using a data management plan (DMP), where applicable, to describe the use of data in preparation for, or in the generation of their theses, and
- depositing, where applicable, a dataset in the HKU Scholars Hub. "RPg" includes the degrees of MPhil, PhD, and SJD.

### Endnote Workshops

Registration for Endnote Workshops is now open.

Endnote is a citation management software and the HKU site licence covers current HKU staff and students.

Endnote Workshops show you how to build and manage your Endnote library, as well as how to Cite While You Write (CWYW).

Both Face-to-face and Zoom sessions are available.

Check schedule and register here for either Win or Mac session.

#### Before the workshop

You are encouraged to watch **Endnote Training Videos** to learn basic skills to build and manage your EndNote library.

#### What is Endnote?

EndNote is a bibliographical management tool designed to help you to:

- · organize bibliographic references
- · search and retrieve relevant citations
- · create in-text citations while writing papers
- · develop a personal library of references
- · format citations for papers
- · build a bibliography

HKU has signed a site licence agreement with EndNote, which permits all current HKU staff and students to use the software both on campus and at home. Upon accepting the agreement in the request form, HKU staff and students must abide by the Conditions of Use of the EndNote software.
